

## Sage UBS <sup>plus</sup> - Online Update Guide

The Online update wizard guides user through the entire process of Sage UBS <sup>plus</sup> online update. Just follow the produce step-by-step as provided below.

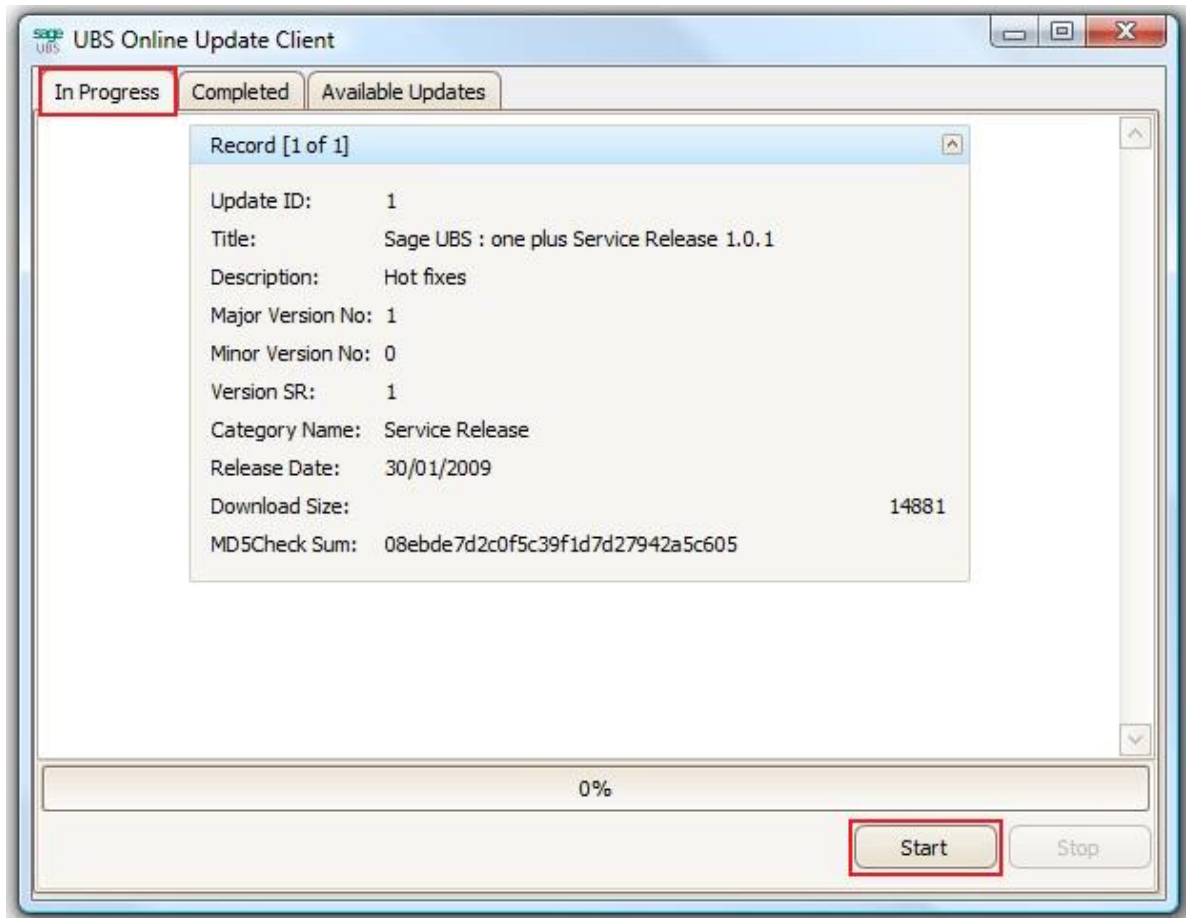

1. Run Sage UBS:one <sup>plus</sup> and login to the system.
2. When there is update available, the **UBS Update** balloon will be displayed at the task bar.

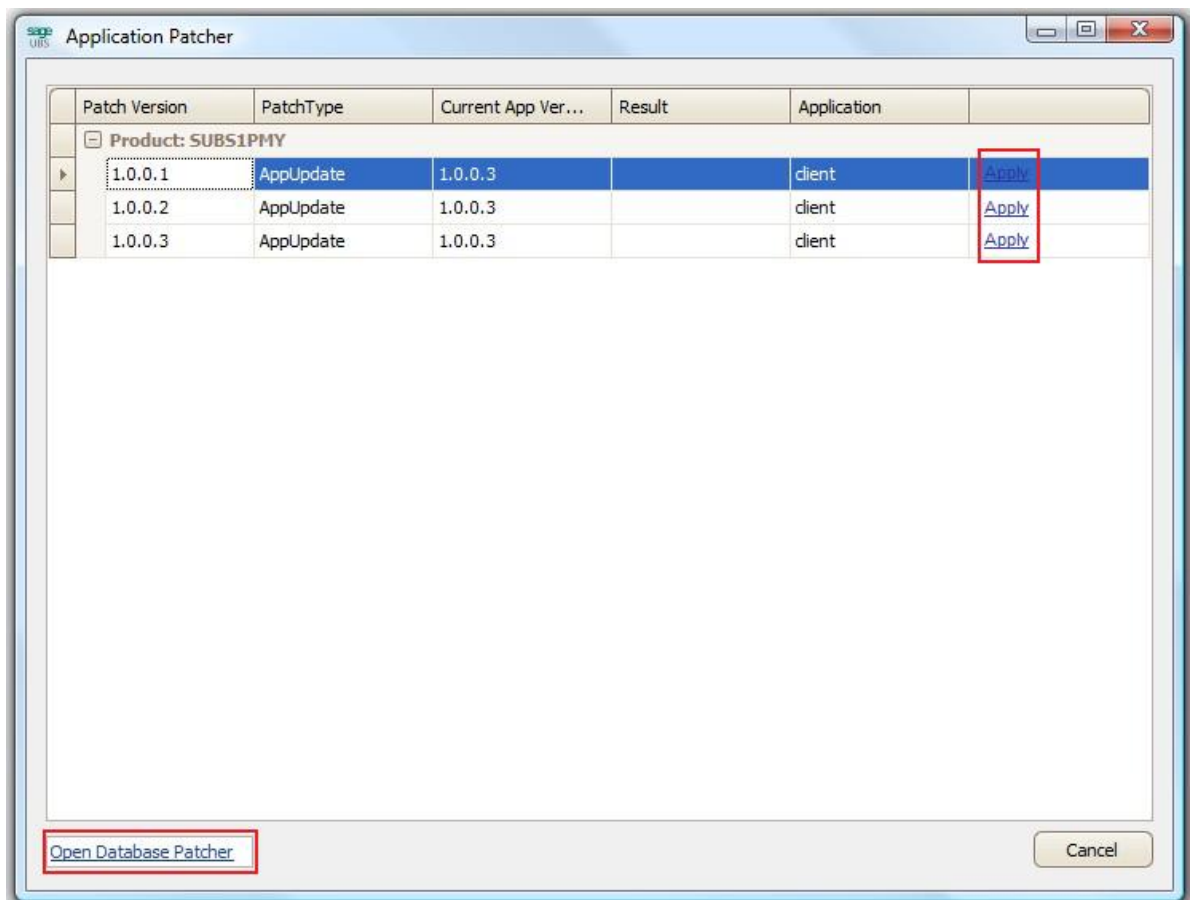

3. Click on the balloon and the **Online Update Client** will be shown. Go to the **Available Updates** tab to check for the updates available.

4. Go to **In Progress** tab, click **Start** to download all the updates.

5. After all the updates have been downloaded, the **Application Patcher** will be shown. Click on **Apply** to install the updates for the system. After that click **Open Database Patcher**.

6. Select the product from the **Product** drop down list. Enter the User ID and Password. Click on the **Login** button.

7. Select the database updates under the **Available Patches**. Select the database which the updates will be applied to under **Databases**. Click on the **Apply** button. System will update the database accordingly.
